

# Annual CONTACT and CONSCIOUSNESS RETREAT

September 28-30, 2018 | Oracle, AZ  
with Lyssa Royal Holt

An advanced training to explore and initiate interdimensional and extraterrestrial contact as a path toward consciousness evolution

## Activities & Topics Included

In this weekend exploration that includes much experiential work, we move beyond the idea of whether extraterrestrial or interdimensional life exists. Instead, we embrace the idea that it does, and explore how we as humans can create a common ground upon which two “alien” species can meet. This is an exploration of the frontier of consciousness itself. Using consciousness, how can we bridge the gap between life forms and make a profound, lasting, and meaningful connection that enriches our lives, evolves our spirit, and positively affects the human species?

Human evolution is moving at a rapid rate and soon our technology will, without a doubt, bring us face-to-face with the reality of life beyond our Earth in its myriad forms. Before that happens openly, we as a species can facilitate a smooth transition into a universal community through preparedness, and an understanding of human consciousness as it encounters the new paradigm of ET and/or interdimensional intelligence.

**Lyssa Royal Holt**, a globally-recognized author, contact researcher, channel, and seminar leader has been offering these retreats in various forms since the early 1990s. They are wildly popular in Japan, where most retreats are offered, and rarely given in the USA due to Lyssa’s travel schedule. We are excited to offer this rare event in Lyssa’s home state of Arizona—known for its many UFO sightings. Lyssa is the author of the ground-breaking book *Preparing for Contact*. A new edition with all new material was released in 2011.

**Each retreat is unique.** If you have attended before, you will find more new experiences and insights. This retreat is known for its high level of repeat attendance. Attendees help to shape the event through their input and energy. Over time, this energy builds, and we see it in the profound contact experiences our groups have. Be prepared for the unexpected!

**Location:** In 2018 we hope to have a new permanent home—a private retreat center in Oracle, Arizona. All lodging and meals will be included. Our group will have full private use of the retreat center and the grounds, where we will have our outdoor contact work under the beautiful Arizona sky.

**Further Information:** Please go to our web site to read more details about registration, preparation for the event, and more. See [www.lyssaroyal.net](http://www.lyssaroyal.net) or our company web site at [www.solischool.org](http://www.solischool.org) in the schedule sections. When registration opens, you will find a link to this complete flyer that you can download, plus a convenient online registration form.
