

School of the Nine Serpents

Awakening Teachings from Sirius and the Pleiades Based on Ancient Vega Mysticism

With Lyssa Royal Holt
March 28-29, 2026 | Held on Zoom in English Only
10:00am to 4:00pm Each Day (Arizona Time)

In 2014, the channeled beings through Lyssa named Sasha (Pleiades) and Hamón (Sirius) began sharing very ancient awakening teachings that came from Vega Mysticism. These teachings were the foundation of spiritual understanding for our galactic family for millennia. In the ancient days on Earth, our Pleiadian and Sirian ancestors began to share this lineage of teachings. They believe it is their honor and duty to share these teachings to assist the development and awakening of younger species, and that we on Earth will eventually share the teachings with new species that we will contact in the distant future.

These teachings span many eras and are only given during evolutionary cycles that support growth. During each era, the appropriate teachings are given that match the planet's evolutionary state. We on Earth have just entered a new evolutionary cycle in which our spiritual growth is accelerated. Because of this, the ancient Vega Mysticism teachings have begun being transmitted again – but at a more advanced level (compared to last time) that matches our evolutionary path in the current day.

The “nine serpents” is a metaphor. The serpent metaphor is used to refer to a specific “gate” through which we must pass in order to transform the human ego in a way that ignites our awakening. These gates form a map that can guide us in our awakening process. There are nine of these gates in the School of the Nine Serpents. This school of consciousness is nonlinear and usually takes lifetimes to master. Each time we encounter it in our incarnational cycle, we spiral to a new level of wisdom and practice. Now that we have entered a new cycle in our awakening process on Earth, those students who have already practiced the wisdom in these schools in the ancient past are being guided to continue at a new level of mastery. If you are reading these words and feel attracted to this information, then it is likely you have already encountered this training in other lives.

This workshop will include lecture, guided meditations, exercises and energy transmissions. Each student will also leave the workshop with a list of homework practices if they wish to continue their development.

The Workshop Will Include:

- Detailed information on each of the nine schools within the School of the Nine Serpents
- Experiential practices designed to ignite the energy of your past training in this school (in other lives) and how to apply that training in your current life
- Guided meditations to practice key concepts of various schools
- Homework exercises to continue your practice after the workshop, and why it is important
- Healing the wounds from the last 13,000-year cycle on Earth
- Sirian (masculine) and Pleiadian (feminine) energy balance
- Techniques from our galactic family for spiritual growth
- And much more

What You Can Receive:

- Integrate your physical and spiritual self through powerful practices
- Learn what true awakening means, which is different than what is taught in mainstream spiritual movements
- Be inspired to not only accept being a human, but celebrate it! How to honor your humanness.
- Learn how to use the challenges of being human (such as pain) as a way to refine your spiritual evolution
- View the bigger picture of the School of the Nine Serpents and how it has shaped our galactic family since ancient times. Seeing the bigger picture helps you feel connected to the importance of your personal growth work in this life.
- Learn meditation processes to work with inner blockages and traumas
- Receive powerful energy transmissions from the ancient 9 Serpents masters to assist in your integration and awakening process.
- And so much more!

When the weekend is complete, you will have a valuable “map” to help you do the vital inner work necessary for personal and planetary awakening. Each person’s journey is unique and they move in their own time, but when you have a map, the journey can be a relaxed and joyful one!

Fee: \$295 for two days
